

The latest evolution in wearable product for performance sailors. Compact, with an ergonomic shape, the Deckvest provides maximum freedom of movement, whilst providing the security and fit demanded by today's sailors.

Deckvest DW-LJH

- 1 Reflective strips**
retro-reflective strips for enhanced visibility at night.
- 2 Ergonomic shape**
3D shape, tailored for comfort in cushioned fabric
- 3 Secure 'Sharks Tooth' Zip**
- 4 Rapid and Secure Fit**
Stainless steel buckles easily adjust and secure the harness firmly and safely around the body. Adapted to withstand the harshest marine environment.
- 5 Lightweight tether attachment point**
The webbing loop has the strength of steel but with significantly less weight and no metal to metal noise when clipped on.

- 6 CE approved spray hood**
Standard is a CE approved spray hood that can be pulled down when face and eye protection are needed. The fluorescent hood has Reflexite strips for extra visibility.
- 7 Aquaspec AQ98 light**
The light is the smallest SOLAS approved lifejacket in the world and represents the latest technological advance. The AQ98 is activated automatically upon contact with water while a mechanical switch enables manual de-activation. Flashing light, lithium 8hr duration.
- 8 United Moulders gas inflation system**
Latest version MK5i inflator inhibits accidental inflation in humid or heavy weather
- 9 Interlock Bladder**
150N Interlock Bladder prevents 'channeling' of water into the face

CE approved
EN396 approved 150N Lifejacket
EN1095 Deck harnesses
EN/ISO 9001 certified

Front Opening '2T Fastener'
